TROY RISK, INC. | STATEMENT OF QUALIFICATIONS

Troy Risk, Inc. is an environmental consultant with more than twenty years environmental investigation and remediation experience. Clients depend on Troy Risk to characterize and manage environmental risks and provide strategic solutions that meet business goals. Using the latest investigative and remediation technologies, Troy Risk has developed streamlined procedures that save time and money. Troy Risk specializes in Environmental Site Assessments, Brownfields, Landfill Compliance,

Risk Evaluations, and Litigation Support. We routinely complete sub-surface investigation and remedial design & implementation requiring expert knowledge of complex geologic and hydrogeologic settings, including Karst topography. Our success is based on fundamental scientific principles, experience with the most advanced remedial technologies, and a team of accomplished Geologists, Engineers, and Scientists who interpret and correctly apply environmental regulations.
